FORTY-FOURTH PUBLIC SALE

of

RARE COINS

To Be Sold by Mail Auction
to the Highest Bidder Without Reserve

Wednesday, October 24th, 1928

by

M. H. BOLENDER,
Orangeville, Illinois

To Collectors—In this sale you will find many numismatic items not generally offered. When a thousand lots of coins are offered in one sale, it is impossible for me to call your attention to everything of importance, but do not overlook the choice 1795 half eagle, fine early silver dollars. Ancient silver and bronze coins, wonderful medals of Napoleon, superb medals of the War of 1812, numerous large cents in various conditions, with many gems, best collection of the rare Hard Times tokens I have yet sold, U. S. fractional currency, three 1799 cents, lot of old letters and stamped envelopes, unusual Pennsylvania Bungtown coppers, rare World War medals, fine foreign silver of dollar size, all commemorative half dollars, Civil War cents, rare Bechtler Georgia gold, choice Civil War tokens, extremely rare dollar of 1839, etc., etc.

Keep on my mailing list by sending bids, or if you find nothing to bid on, request next list simply by a postal card. You will find a great variety of numismatic material in this sale, some choice and rare items, and will be well paid for giving the contents of this sales list your careful perusal.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

Collectors of experience find that not all dealers classify coins alike.

My classifications and descriptions are based on knowledge gained through 15 years of earnest dealing in coins. I have endeavored to refrain from over-rating the quality of a lot, which is so common. I believe that the word "RARE" should not be over-worked.

Please remember my strong guarantee. If goods are not satisfactory (you are to be the judge), you are at liberty to return them without any danger of offending.

New bidders should send references or a deposit of at least 25 per cent of bids.

Coins will be bought as much below your bids as possible, as this is competitive bidding carried out in good faith.

If you do not know how much to bid on any item, write me and I shall be glad to inform you as to its value.

Receipted bills are not sent after your remittance as this is unnecessary. Your check, draft, or money order itself is a receipt and we ask you to pay only once. However, if a 2-cent stamp is enclosed we will send receipt.

Some new unsolicited testimonials recently received:

"I am well pleased with the coins you secured for me]" From Kansas.

"Best thanks for check in settlement of my August consignment. I am pleased with the results. I shall send you more in a few days."

"We are sending you another collection to sell. Give it the same splendid attention you always do."

"You can rest assured that I very much appreciate your way of doing business."

"I like the way you list things. You do not rate common items as 'rare.' Thanks for your promptness and confidence I can have in you."

"I am more than satisfied with the coins you sent me. You are more than fair in describing them as to condition."

"Am pleased with the coins I just received, and hasten to enclose check to try to be as prompt as you. Thank you for the pleasant dealings and courtesy you have shown."

"I am much pleased with the way in which my bids were executed in your recent auction, and hasten to enclose New York draft in payment."

"I have dealt with you for a long time and have found you a square shooter."—Florida.

"I received check for proceeds from the sale. The result is entirely satisfactory to me and more than I expected."—New York.

Let me sell your collection or duplicates in these sales. Quick returns and satisfactory results are realized. My sales are held regularly each month. Write for terms.

Please bid by the piece unless stated to bid for the lot.

UNITED STATES LARGE CENTS

1. 1793 large cent, chain AMERICA. About good. Rare variety.
2. 1793 chain type. Crosby 4-C. Very good, nicked a little on reverse. Very rare.

1000. 1900 Washington Lafayette dollar. Bright unc. Choice specimen.

Note—I want to thank my many customers for our pleasant dealings, and especially for the words of general satisfaction received, and prompt remittances. The high character of collectors is easily observed by a dealer.

Next sale will be November 20. Get your coins in not later than Oct. 20 for this fine sale.

Those duplicates in your collection are doing you no good. Send them in to be sold in my next sale now in preparation. Then invest the proceeds in something you want. That is the way several prominent collectors are improving their collections with joy.

Quick returns and satisfactory results are realized as I hold sales regularly each month. Write for terms. Member of American Numismatic Association.

Yours for superior numismatic service.

M. H. BOLENDER

Orangeville, Illinois.

CONDITION OF COINS

The classifying of coins is an intricate and sometimes nerve-testing effort. Even expert numismatists are disagreed on various points. In my auction sales, it is my earnest purpose to give both buyer and seller a square deal. It is quite natural and common for an owner to over-rate the condition of his own coins, sometimes without realizing it. But when a dealer sells a coin to a customer, he should place himself in the customer's place and abide by the golden rule. I want to have my customers get what they expect, and try to represent everything fairly. Therefore, I have adopted the following definitions of conditions of coins, this feature being of the very highest importance in collecting. Please make your bids according. And remember, that even in my auction sales **I guarantee absolute satisfaction in every way or your money will be cheerfully refunded** as well as any postage you have expended in returning lots.

A coin in **proof** condition is one of that class which is prepared in the mint particularly for numismatic purposes. This is the highest state of condition imaginable and a coin in this condition has its maximum value. The planchet (bare piece of metal before struck) and dies are polished before the coin is struck (made) and this gives a burnished, mirror-like, reflective surface. **Never try to polish a coin.** The only time this could be done, is before it was made.

A coin in **uncirculated** condition is one that is in just the same state or condition as when delivered from the mint. It must not be tarnished or blackened, but must have a splendid general appearance. The coin must be entirely desirable. Luster is usually abundant.

A coin in **fine** condition is one which shows to the naked eye no signs of wear. They may have become tarnished or blackened, but seldom are. As a matter of fact, a coin may have experienced considerable traveling and yet be classified as fine if it has been luckily in good hands.

A coin in **good** condition must show every feature very plain. Coins with part of the legend worn smooth are no good specimens.

A coin in **fair** condition is a piece which has been very considerably in use, but upon which the most of the lettering, design, and date is clearly readable. Moreover, the coin must be free from mutilation. If the surface of the piece has been worn down so smoothly that the design, legends, and date are not plain, or if there is a hole in it, or if it has been bent or is corroded or otherwise damaged, then such a coin cannot be classed as fair, as it is not as valuable.

J. W. Scott once said, "No two stamps if examined critically are exactly alike." I can say the same thing of coins. Therefore, it is necessary to use intermediate conditions as follows:

Extremely fine—with not enough, original mint luster to be classed as uncirculated.

Very fine—Fine, extra strong, well-struck, and desirable in general appearances.

Very good—Everything very plain and showing very little wear on any part. Just the highest parts of the coin are affected.

Very fair—Everything legible, but general appearance not worthy of the classification "good."

Other terms speak for themselves. Among these are poor, very poor, holed, scratched, bent, nicked, mutilated, polished, cleaned, tarnished, corroded, eroded, dented, rubbed, etc. These terms have the same meaning in relation to coins that they have in other usage. See Webster's Dictionary.

It is nearly impossible to improve the numismatic condition of a coin by any method, except in very rare cases, and then only at the hands of an expert. By this I mean that if a piece is worn or scratched, it can not be remedied by polishing. On the contrary, its condition may be lowered in degree.

THE NEW PAPER MONEY

Your new \$10,000 bills—all of them—will bear on their faces the portrait of Salmon P. Chase, Secretary of the Treasury, of the United States from 1861 to 1864.

When you get one changed on the street car, the conductor will return to you bills embellished with portraits of ten other persons of note in the history of the nation as follows:

\$5000 bills, Madison.

\$1000 bills, Cleveland.

\$500 bills, McKinley.

\$100 bills, Franklin.

\$50 bills, Grant.

\$20 bills, Jackson.

\$10 bills, Hamilton.

\$5 bills, Lincoln.

\$2 bills, Jefferson.

\$1 bills, Washington.

To tote the stuff around, you probably will need a new pocket-book, as the new currency will be $6 \frac{5}{16}$ inches by $2 \frac{11}{16}$ inches. The 10,000-dollar note now in your vest pocket is $7 \frac{7}{16}$ by $3 \frac{1}{8}$ inches.

Distribution will begin after July 1, 1929.
